GALLA RISHI

6302509230 | rishigalla29@gmail.com | Hyderabad, Telangana

Summary

Passionate Robotics engineer leveraging Machine Learning and Deep Learning techniques to build intelligent, data-driven robotic systems.

Education

Mahindra University | Hyderabad
Robotics (Currently Pursuing) | 08/2027

Institute of Aeronautical Engineering (IARE) | Hyderabad
CSE (Artif icial Intelligence & Machine Learning) | 06/2025

Narayana Junior College | Vijayawada
XII | 08/2021

St. John's School | Gannavaram
X | 12/2019

Projects

Smart Dustbin | YOLOv8n, Computer Vision, Python 2025 – Present | Hyderabad, India Developed an AI-powered smart dustbin using YOLOv8n for real-time waste detection and classification into recyclable, organic, and non-recyclable categories. Integrated a computer vision pipeline with hardware components to automate bin operations, minimizing manual intervention. Demonstrated practical application of deep learning in environmental sustainability and smart city solutions.

NeuroSAR — Deep Learning SAR Military Intelligence System 2024 – Present | Hyderabad, India
Built NeuroSAR — an end-to-end deep learning pipeline for military activity detection in Sentinel-1 SAR satellite imagery, featuring a custom Attention U-Net, synthetic data generation with real radar physics, and Siamese change detection.
